

Round 4 — Final Graphs

Ndel1 suppresses ciliogenesis in proliferating cells by regulating the trichoplein-Aurora A pathway

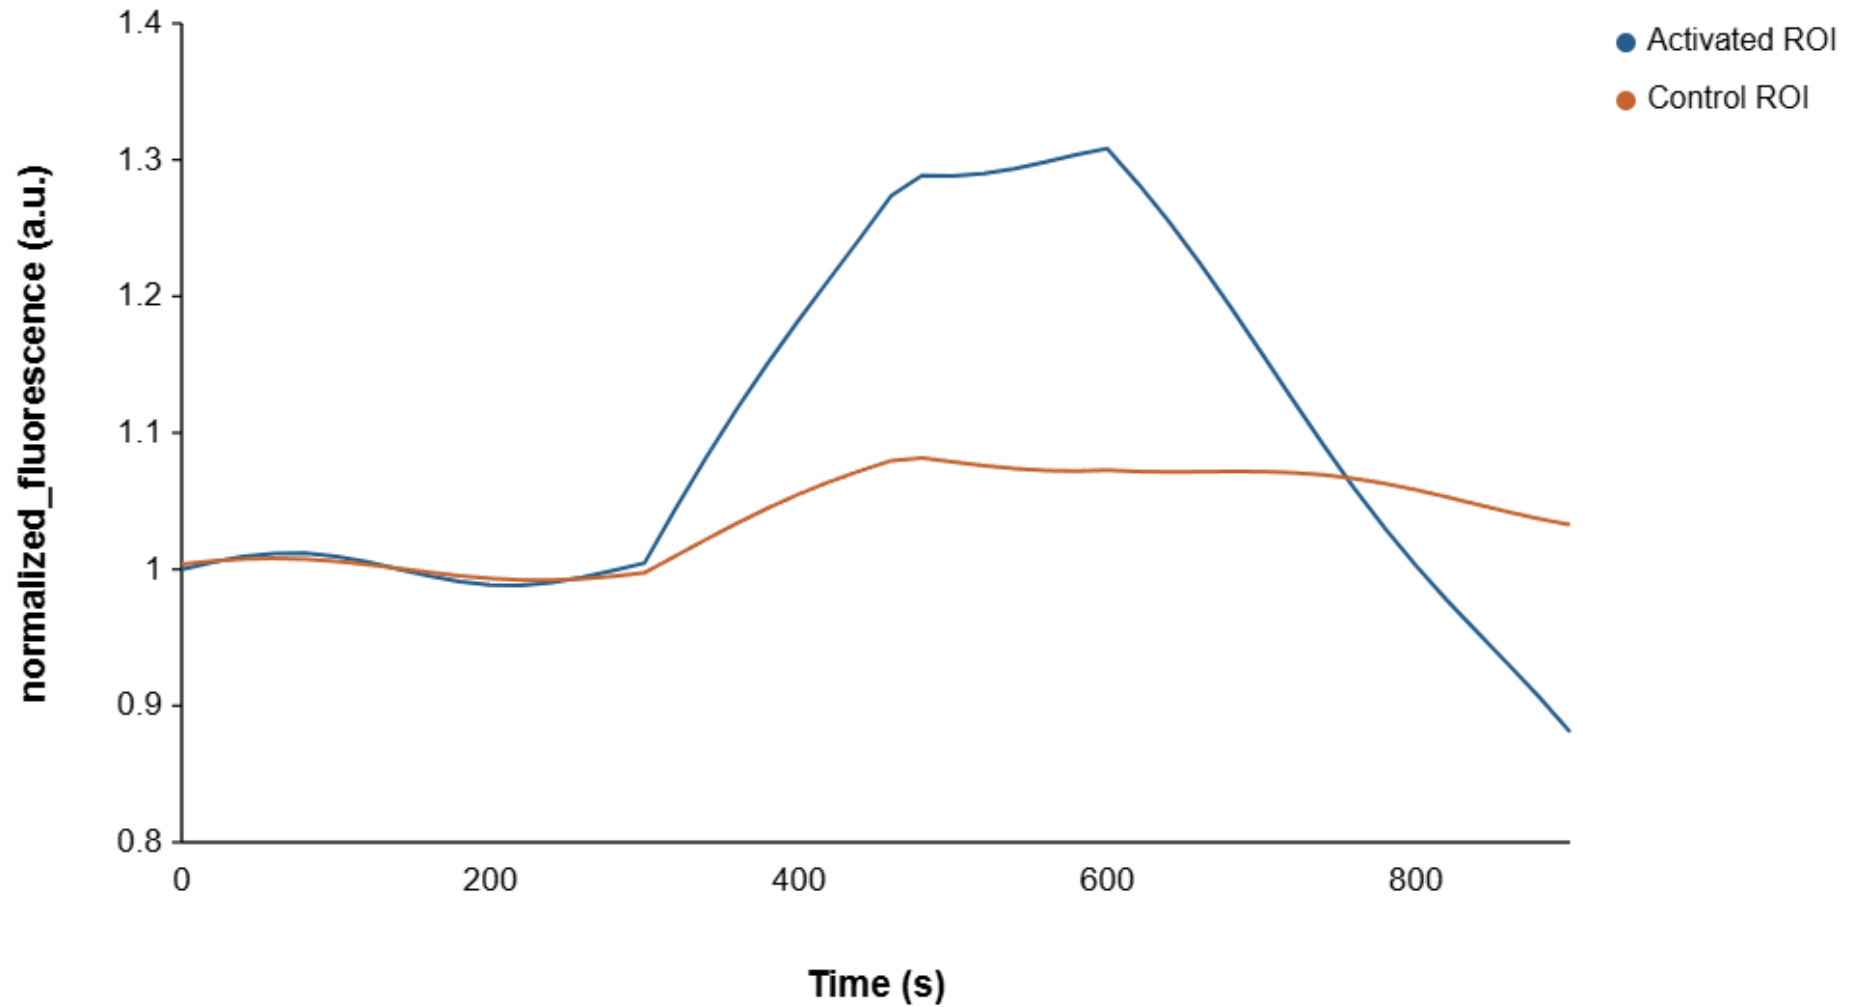

Round 4 — Final Graphs

Ndel1 suppresses ciliogenesis in proliferating cells by regulating the trichoplein-Aurora A pathway

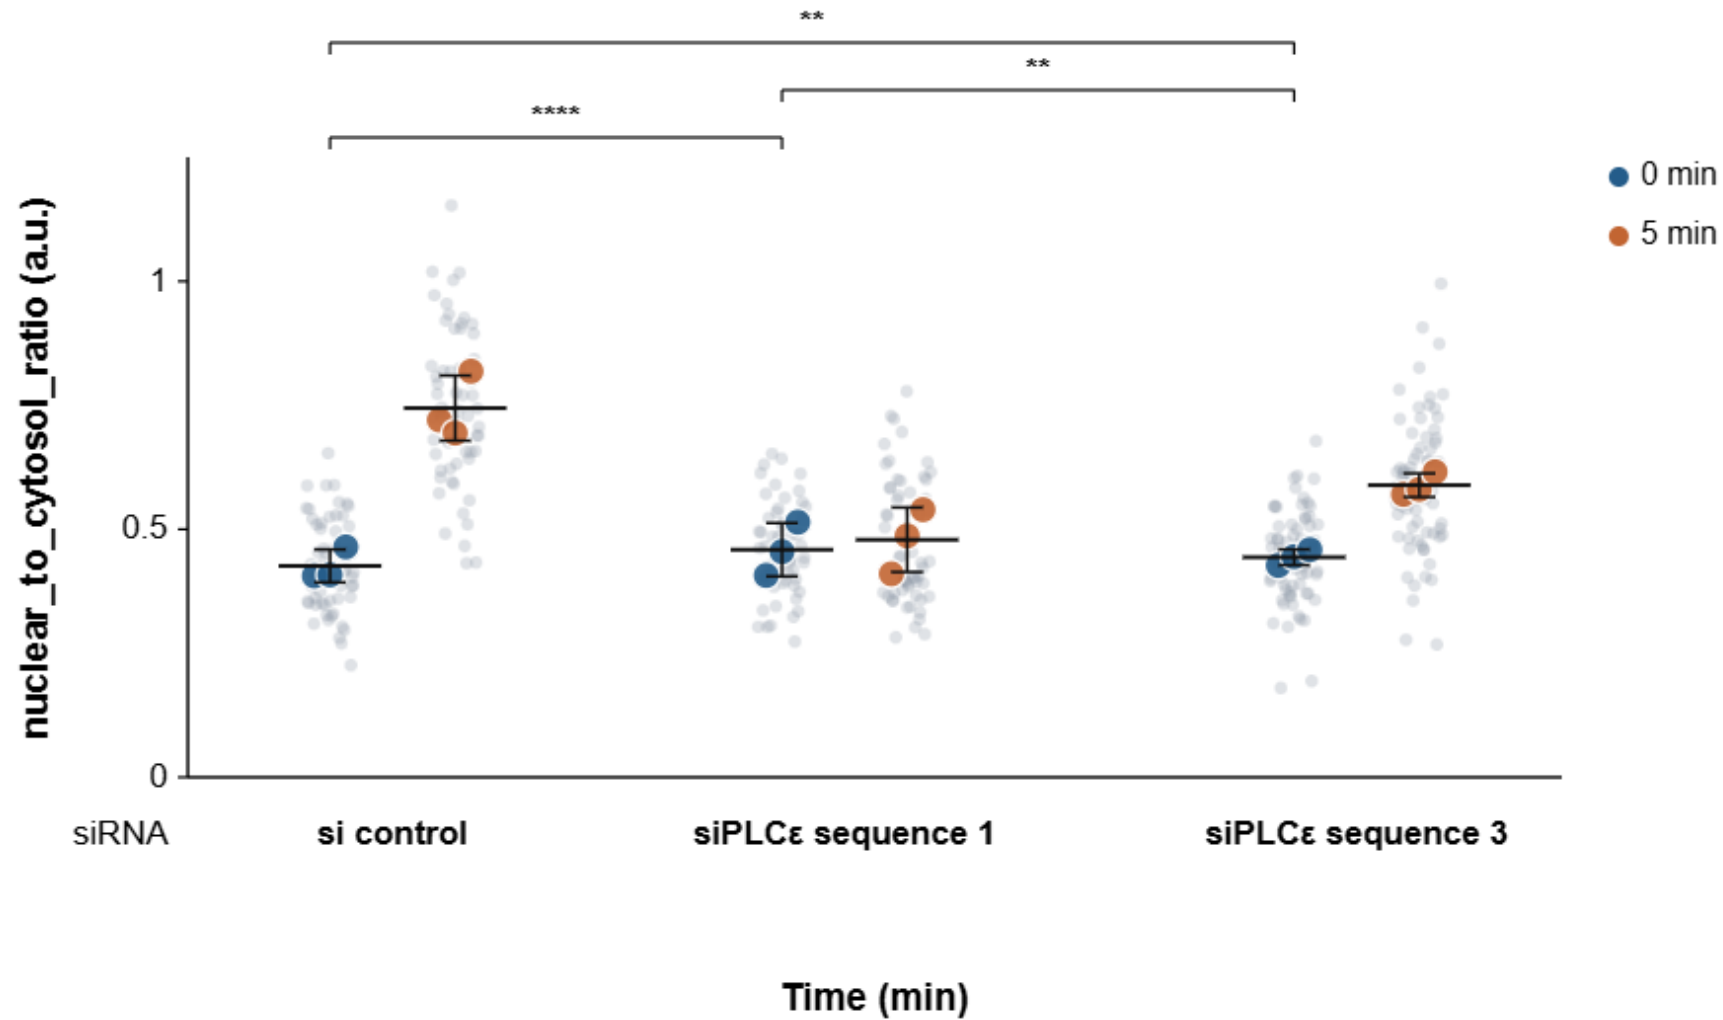

Round 4 — Final Graphs

Optogenetic control of small GTPases reveals RhoA mediates intracellular calcium signaling

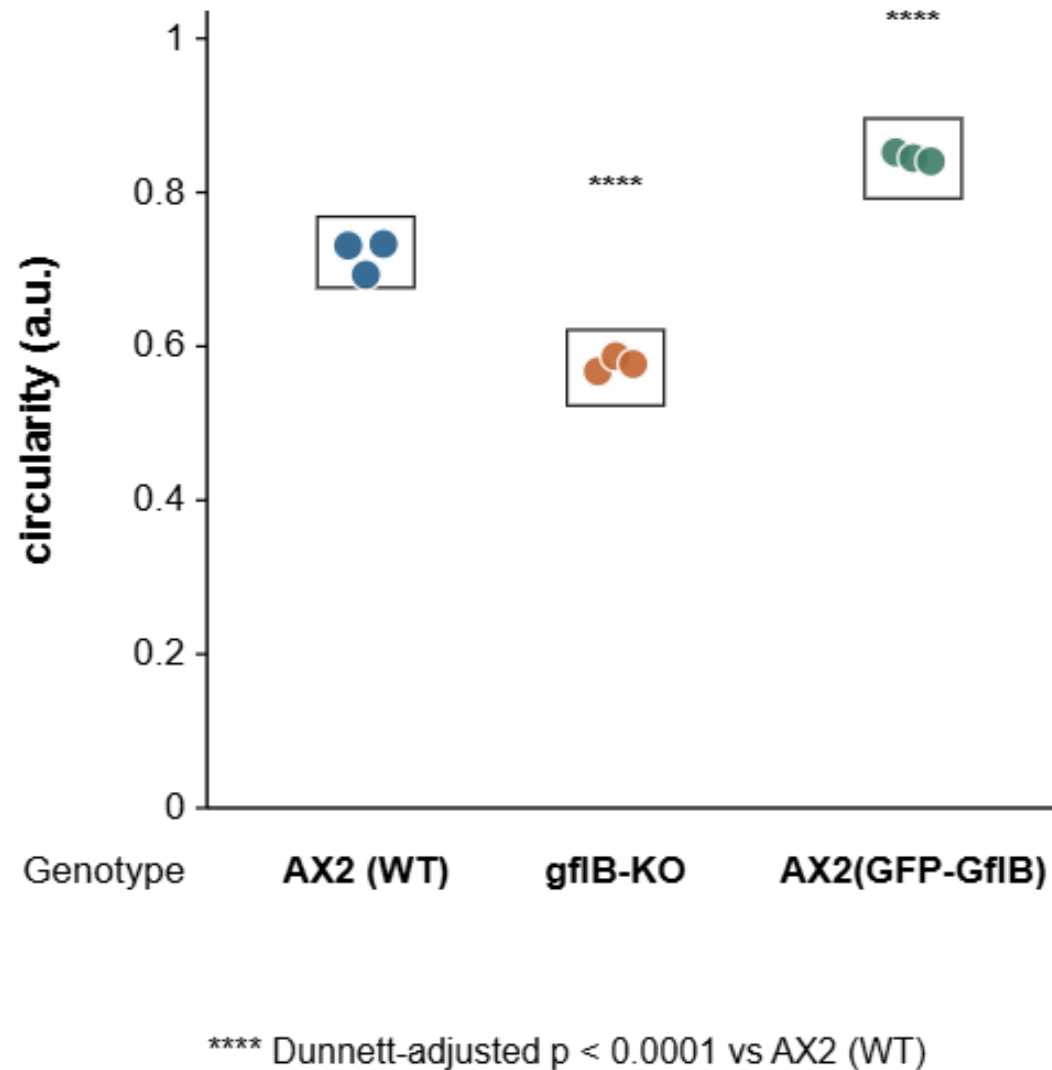

Round 4 — Final Graphs

Optogenetic control of small GTPases reveals RhoA mediates intracellular calcium signaling

Round 4 — Final Graphs

The F-actin-binding RapGEF GfIB is required for efficient macropinocytosis in Dictyostelium

Round 4 — Final Graphs

Cryo-ET of actin cytoskeleton and membrane structure in lamellipodia formation using optogenetics
